

 **HANSEN**  
INTERNATIONAL

**A HIGHER STANDARD**

WHEN YOU'RE A PART  
OF SOMETHING  
**BIGGER**

# EVERY PART MATTERS

Every day, every hour, every minute – men and women are working from the sidelines to make our world work. We're able to depend on them because they're able to depend on their equipment, vehicles, and hardware.

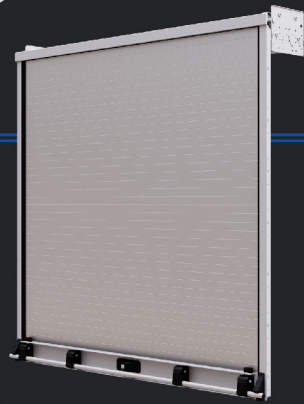

When so much of our lives hinges on *getting the job done*, it's imperative our everyday heroes have hardware that works as hard as they do – **Roll-Up Doors** that are reliable, **D-Rings** and **Paddle Handles** that are durable, and **Grab Handles** that can hold their own against the hard days and long nights.

For over 100 years, our team at Hansen International has been manufacturing hardware and parts that do just that. We take pride in every part we make because we know it's a part of something bigger. Using only the finest materials and innovative designs, we define *A HIGHER STANDARD*.

# THE HANSEN DIFFERENCE

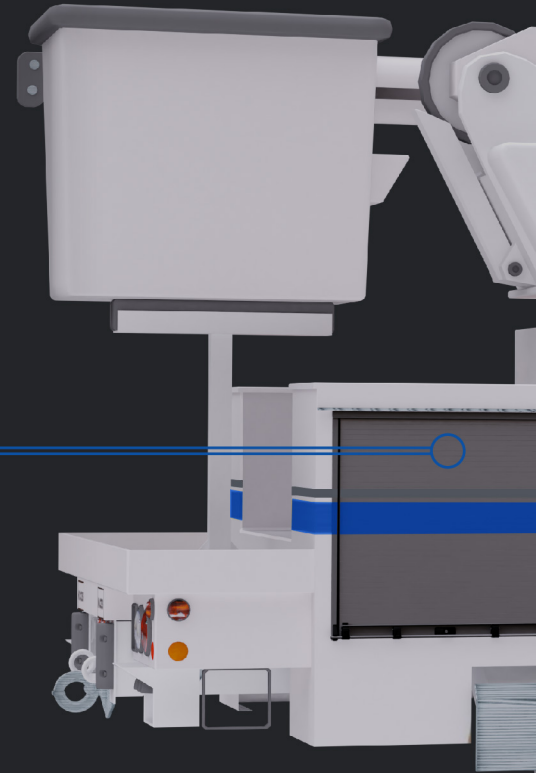

## A HIGHER STANDARD

For us, it's about people – and providing those people with the most reliable, innovative products that work as hard as they do.

### ROLL UP DOORS

Our roll-up doors offer customizable features and options using the finest materials and innovative design to provide the utmost protection, durability, and productivity for exceptional performance.

**CUSTOM ENGINEERING**

**UNPARALLELED CUSTOMER SUPPORT**

**SUPERIOR SERVICE & ON-TIME DELIVERY**

**UNIQUE PATENTED & TRADEMARKED PRODUCTS**

**INNOVATIVE LEADER IN THE MARKET PLACE**

**EXCELLENT QUALITY & DESIGN OF EACH PRODUCT**

### BACKLIT GRAB RAILS

Our patented backlit grab rail offers LED illumination for safety while also providing an anti-slip surface with or without rubber inserts for secure gripping.

# HARDWARE

THE TOUGHEST IN THE UTILITY INDUSTRY

## D-RINGS

Our patented line of d-rings is proven to perform. We offer many options including, locking, non-locking, varying mounting options and a variety of finishes including stainless and black.

## STEP BOX LATCH

Our innovative paddle handles are designed to meet any need with a wide variety of locking capabilities, material and finish options.

## OUTSIDE HANDLES

Our innovative outside handles are designed to meet any need with a wide variety of locking capabilities, material and finish options.

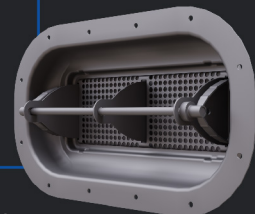

## GUARDIAN LATCHES

The sleek design of this rotating latch system gives a stylish alternative for delivering the functionality of compression action with locking and non-locking capabilities.

## VENTS

Our raised profile steel vent with rod handle is designed to allow fresh air to circulate into the cabin of the truck.

## SUN VISORS

With innovative design and advanced manufacturing, our sun visors are tailored to meet any requirements. Mounting hardware, special materials, and rod configurations are just a few of the many components.

## STRIKERS

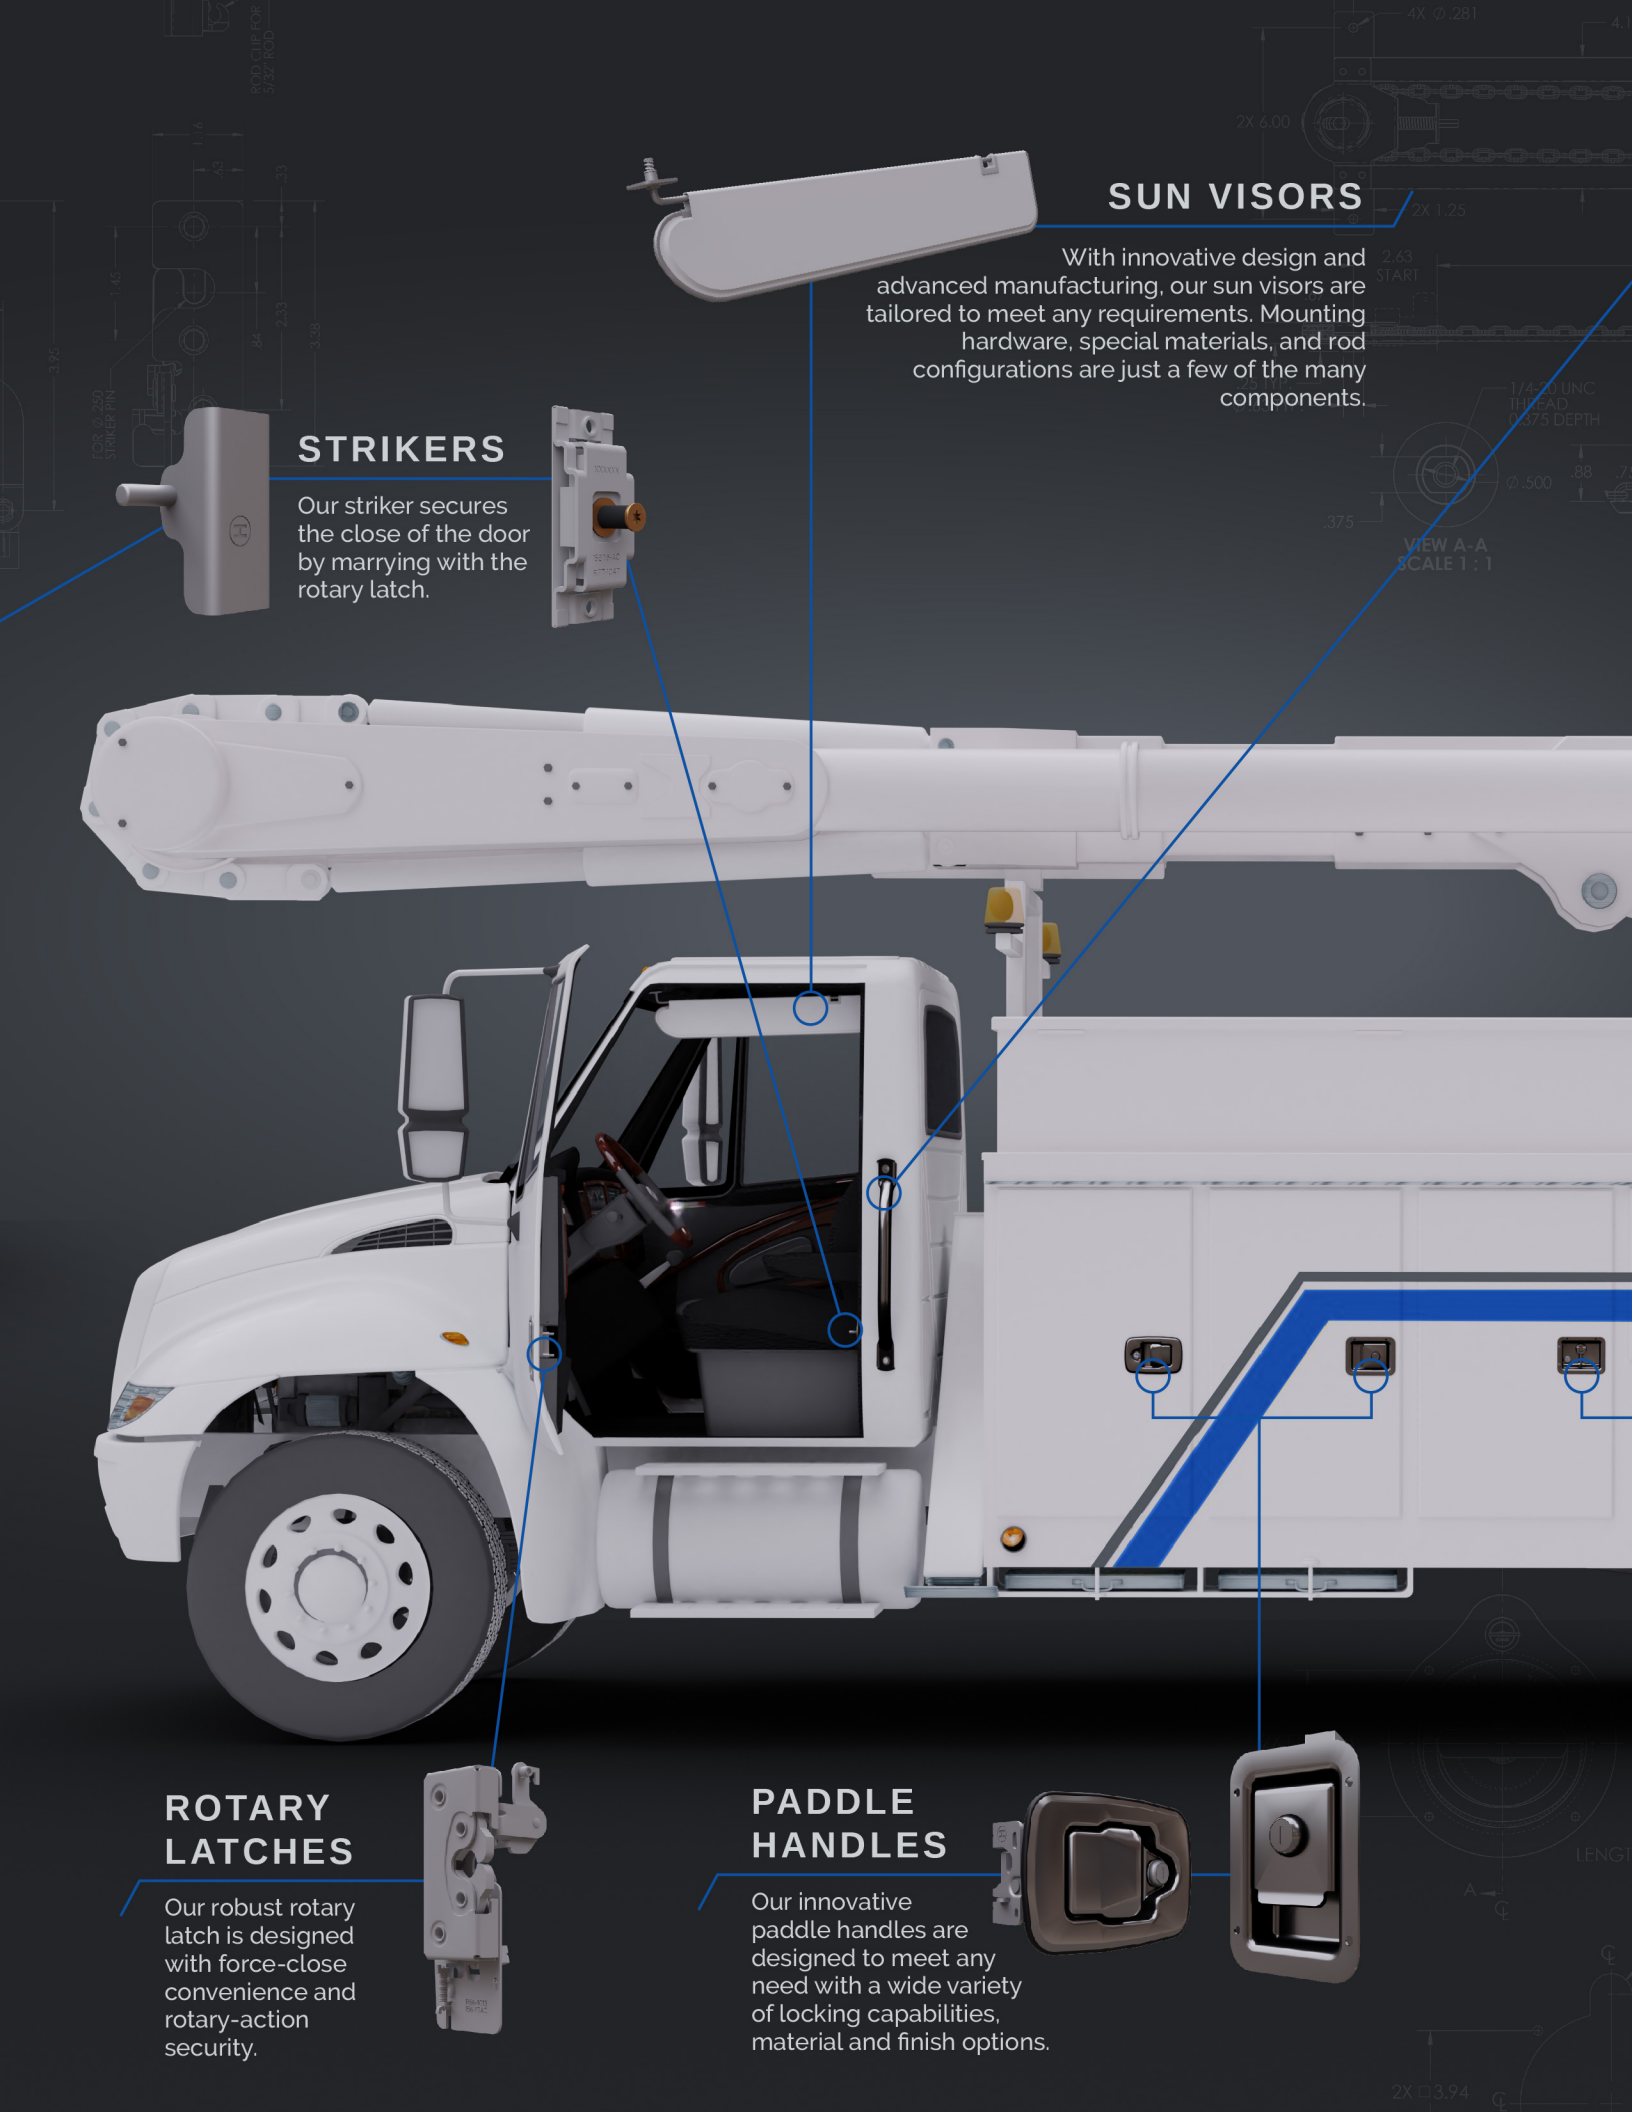

Our striker secures the close of the door by marrying with the rotary latch.

## ROTARY LATCHES

Our robust rotary latch is designed with force-close convenience and rotary-action security.

## PADDLE HANDLES

Our innovative paddle handles are designed to meet any need with a wide variety of locking capabilities, material and finish options.

## GRAB HANDLES

Our grab handle is a versatile pull handle built to provide secure gripping and supportive assistance.

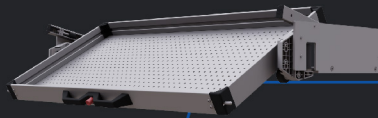

## LOCK-IN/LOCK-OUT DRAWER SYSTEMS

Our customizable drawers offer 100% extension, open & close locked position, and up to 771 pounds of load capacity while also being corrosion-resistant and maintenance-free.

## SLIDE & TILT DRAWER SYSTEMS

We offer flexible drawer systems that provide a tilting function for high-level stowage and easy access to equipment.

## COMPARTMENT LIGHTING

Protected from water and salt, our lighting provides superior LED illumination to quickly and safely locate equipment at night.

## T-HANDLES

The ergonomic design of the T-Handle provides a seamless rotation that swivels outward, unlocks and stows back into the dish, returning to its low profile design.
